

Safety and Sanitation Activity Protocol for LFA teams

Before Activity Begins

- a. Attendance Tracker & Screener (we suggest they are the same person) arrive at park first and set up at the ingress point. Max 20 minutes before scheduled time.
 - i. Screen every person who arrives and record their information on the Attendance Tracker Sheet.
- b. Sanitation Champion checks in with Screener and Attendance Tracker. Then heads to equipment bin with Sanitation Bucket to gather rest of disinfecting supplies.
 - i. Disinfect any high-touch surfaces, including posts, bases, equipment bin.
 - ii. Hang hand sanitizer bottle on outside of backstop for spectators.
 - iii. Make sure team hand sanitizer is in a visible spot for easy use.
- c. In-Charge Person (Injury Attendant) makes sure they have gloves and masks available in case of injury.
- d. Players arrive at park ready to go, with cleats on, no more than 15 minutes before scheduled time.

During Activity

- e. Attendance Tracker & Screener continues to monitor for new participants and spectators. There can be no more than 50 people in attendance.
- f. Sanitation Champion continues to make sure participants are using hand sanitizer on a regular basis.
- g. Distancing Monitor makes sure participants and spectators are maintaining their distance from each other.

After Activity

- h. Attendance Tracker takes a photo of Attendance sheet for the activity and emails it to the LFA Attendance Coordinator at lfafields@gmail.com
- i. Sanitation Champion uses diamond disinfectant to clean high touch surfaces, including team equipment. Gathers rest of sanitation supplies and places into Sanitation Bucket.
 - i. Sanitation Champion emails operationslfa@gmail.com if any of the supplies are running low.
- j. Everyone is to be out of the park 15 minutes after the scheduled end of the activity.
