

## Safety and Sanitation Disinfectant Spray Instructions

1. To operate the pump unlock the pump handle by turning counterclockwise (be careful not to loosen the pump from the tank).
2. To create pressure, move the pump handle up and down until it is hard to pump.
3. Lock the pump handle back into the pump assembly by turning clockwise.
4. Use care when placing the spray bottle back in the green bin and ensure that heavy items are not placed on top of it.

### **USE THE SPRAY TO DISINFECT:**

(use the cloths in your Safety and Sanitation bucket to wipe down your items after you spray them if necessary)

- Balls
- Bats
- Bases
- Fencing areas/posts that have been touched (just spray them, they don't need to be wiped down)

***THANK YOU!***
